Facts about Home & Craft

The “Home & Craft” section at drinktec, introduced with great success in 2017, is now to be a separate exhibition. drinktec, the “World’s Leading Trade Fair for the Beverage and Liquid Food Industry”, is thus setting up an annual platform for amateur and micro brewers. “Home & Craft” is taking place for the first time as an independent exhibition on

September 28 to 29, 2018 in Stralsund, in parallel with the second German Amateur Brewers Championships.

Jointly with you as suppliers of raw materials, brewing equipment or other solutions for smaller brewing quantities, we intend to offer products and solutions for brewing in small batches. In future, ambitious home and hobby brewers will have a possibility of getting in touch with like-minded people and finding suitable equipment for their hobby not only at drinktec, but every year. Accompanying the exhibition, similar to drinktec 2017, there will be a lecture program covering themes on home and micro-brewing.

Störtebeker Braumanufaktur will again be looking for the best amateur brewers in the second German Amateur Brewing Championships. “With the combination of championships and exhibition, our beer festival will be even more attractive,” explains Jürgen Nordmann, owner of Störtebeker Braumanufaktur. “Then we will be able to offer brewers truly everything they need for their hobby: characterful beers, suitable brewing equipment, interesting talks and of course tasty food.”

Around 80 amateur brewers from all over Germany took part last year in the first German Amateur Brewers Championships. In total the beer festival in Störtebeker’s brewing headquarters recorded around 750 visitors who tasted roughly 150 types of beers.

Stand space

Rowstand 3 m² 139,00 €
Stand furnishing: one table (dimensions: 1,84 x 0,60 m or 1,84 x 0,80 m), one chair
